

S No.	Feature	M S Office	Google Office Suite
1.	Text Formatting	Rich and advanced options including styles, themes, and extensive fonts	Good formatting tools, but limited compared to MS Office.
2.	Table creation	Robust table tools, including advanced formatting, formulas, and design templates	Basic table tools with fewer design and formatting options.
3.	Real-Time Collaboration	Limited in desktop apps; available via One Drive/SharePoint	Excellent real-time collaboration, native to the platform.
4.	Saving/exporting formats	Supports a wide range: DOCX, PDF, TXT, HTML, XML, etc.	Good export options, but limited format support.
5.	Offline availability	Full offline functionality in desktop apps.	Available with setup in Chrome, but limited without internet.
6.	Macro/ automation support	Advanced macro/VBA support for automation.	Limited scripting with Google Apps Script, less powerful.
